

CrossW C

IEEE DTU  
Student Branch

# Cross Winter of Code Sponsorship Brochure

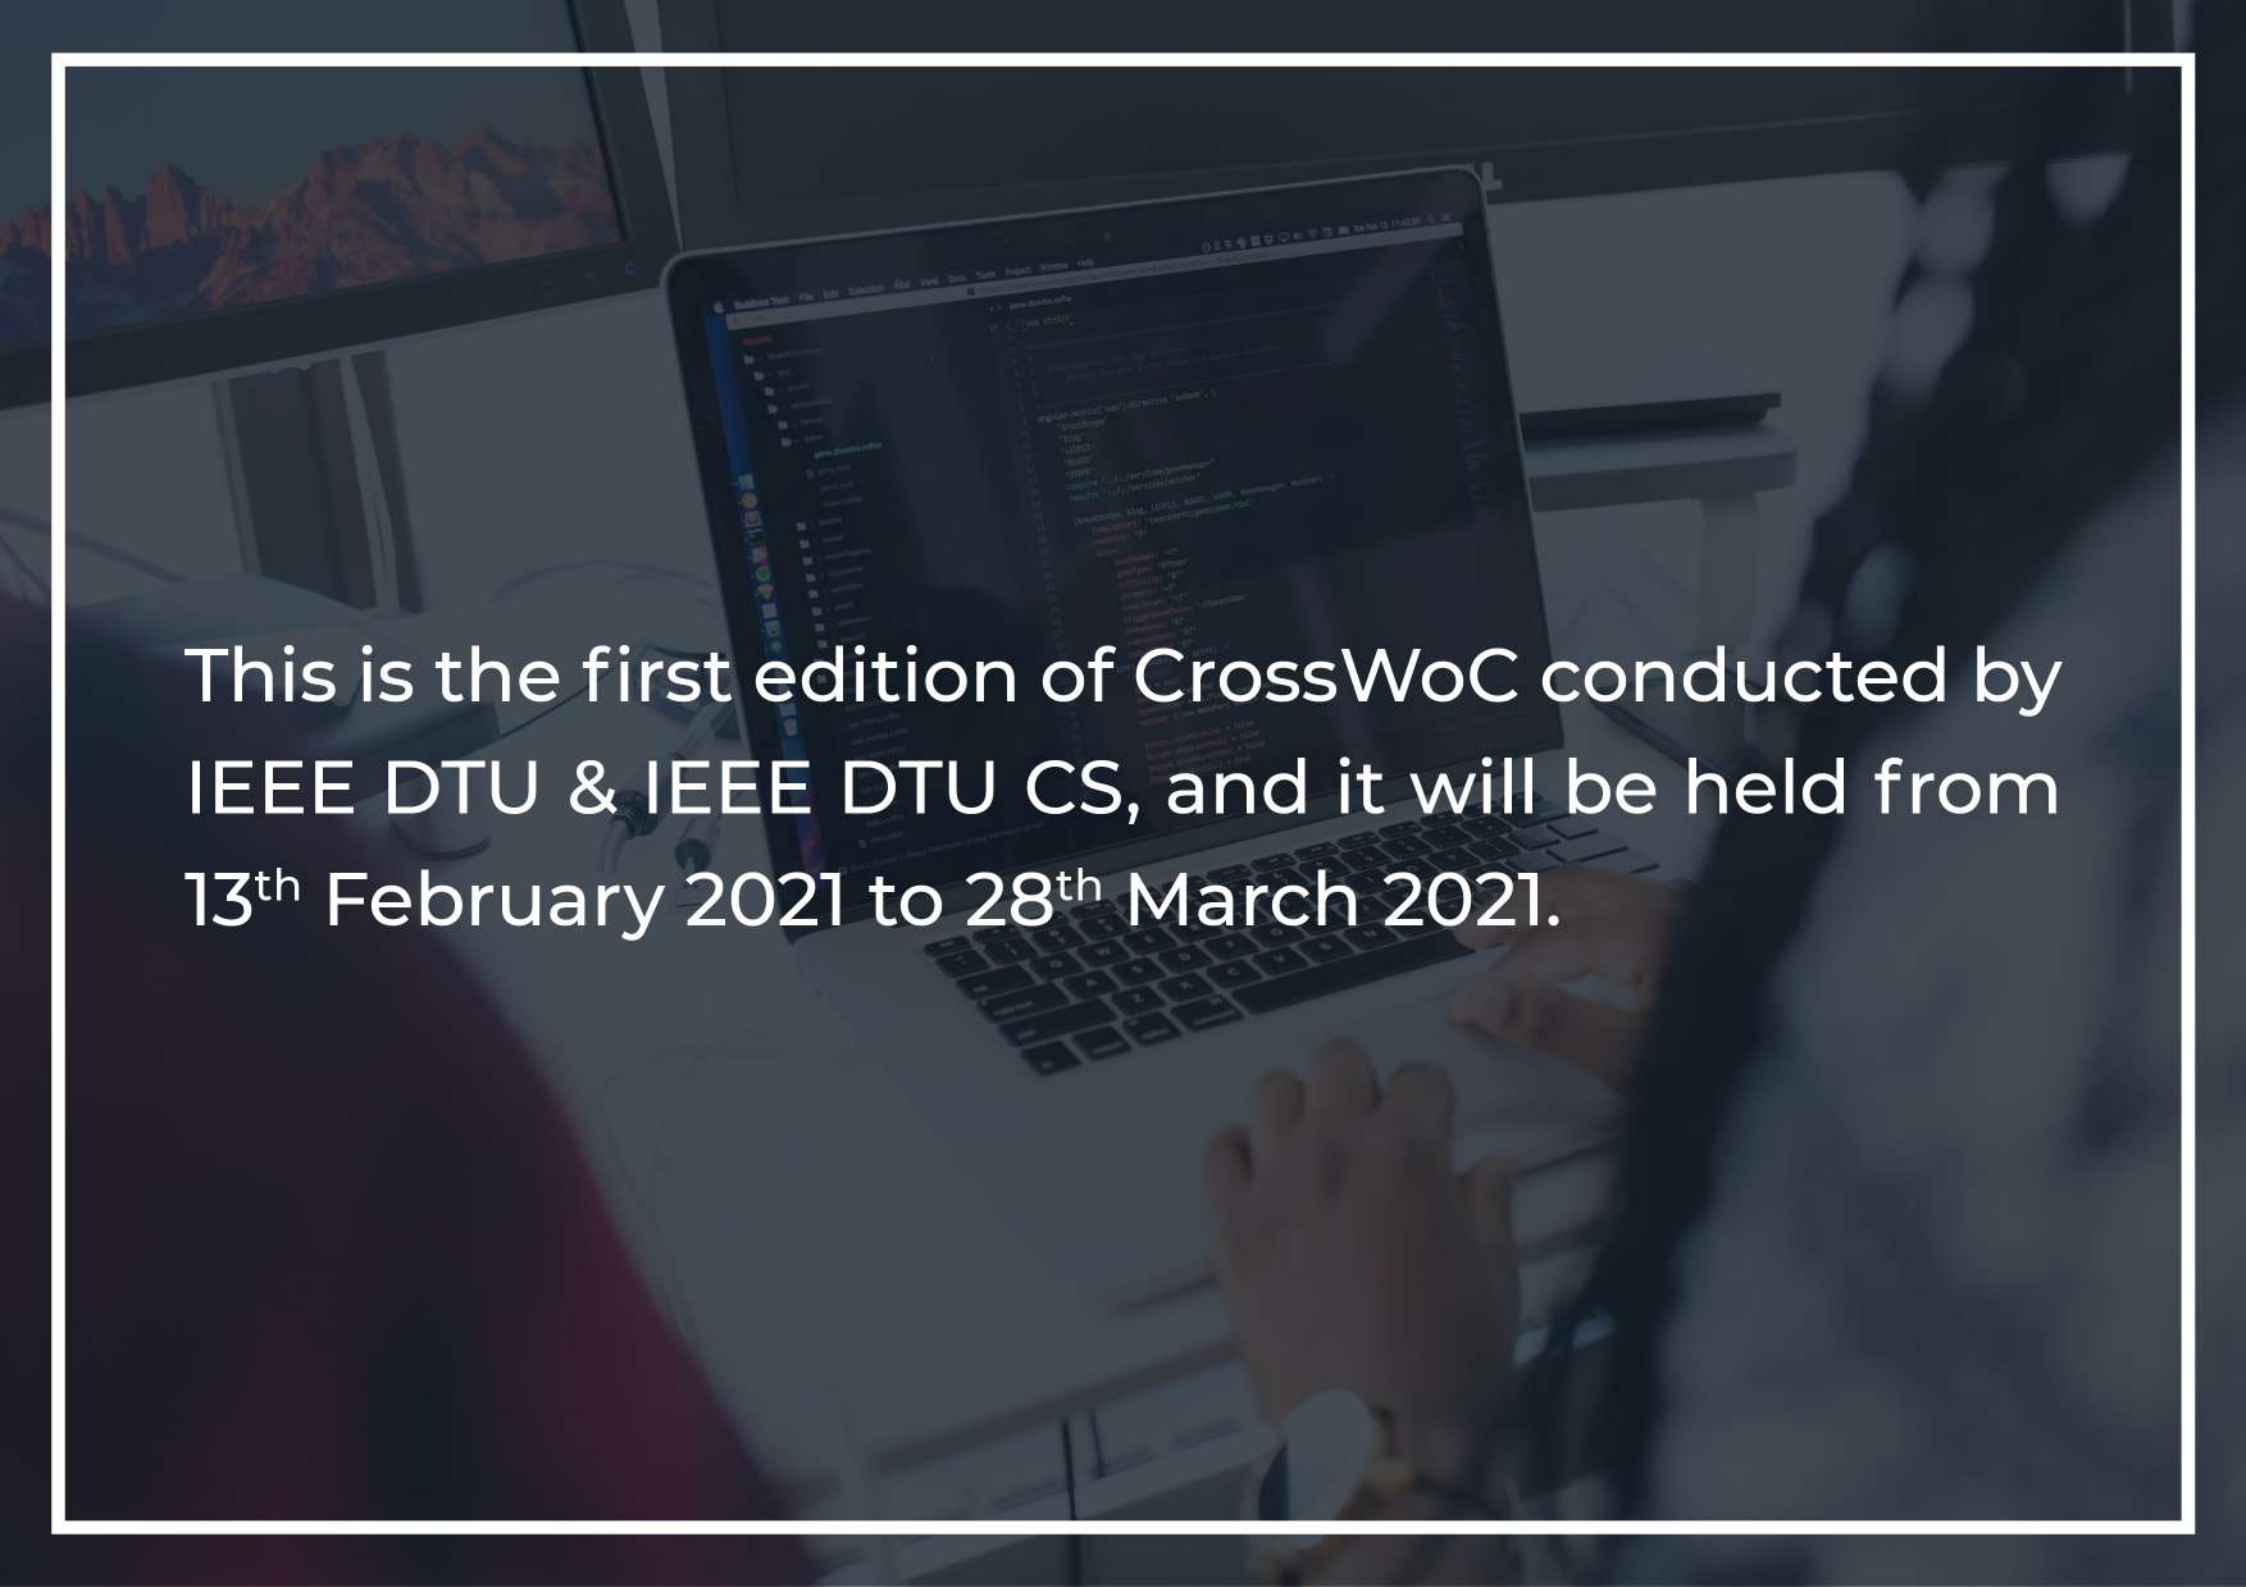

*CrossWoC* is a *six-week* long opensource event organised by *IEEE DTU & IEEE DTU CS*, which gives programmers and innovators an opportunity to bring out their nascent talent and find intriguing solutions to real-world problems.

It provides a platform for developers to dig deeper into their gray matter and bring out their latent creativity through open source.

“Imagination is the beginning of creation. You imagine what you desire, you will what you imagine, and at last, you create what you will.”

— George Bernard Shaw

This is the first edition of CrossWoC conducted by IEEE DTU & IEEE DTU CS, and it will be held from 13<sup>th</sup> February 2021 to 28<sup>th</sup> March 2021.

One of the biggest IEEE Student branches in Delhi, IEEE DTU has emerged as the most active & prolific student organisation in the past 35 years. With over 400 active student members.

IEEE DTU provides students extensive opportunities for skill development in various domains of engineering by actively organising seminars, SIGS and workshops by senior members of the organisation and collaborating with other premier institutions.

## Vihaan

- A 24hr long Annual Hackathon of IEEE DTU
- 1000+ Registrations in Vihaan '19, the Annual Hackathon under IEEE DTU
- 200+ Teams participated in Vihaan '19

## Troika

- The 25th Edition of the annual technical fest of IEEE DTU
- 2500+ Participants in the TROIKA '19
- 1500+ Students in On-Campus Events
- 1000+ Students in Online Events

## Why Sponsor CrossWoC ?

CrossWoC can be an inspiring change for young programmers, instilling in them a zeal to expand the horizons of their creativity, thus fuelling them towards making contributions for the open source companies. The event is a platform for nascent coders to experience the world of open source, giving them an opportunity to push the envelope of it's infinite possibilities by putting their skills to use. CrossWoC could attract many innovative minds which can uplift the development culture in the domain.

CrossWoC is a test of patience and wisdom, combined with strong analytical skills and creativity. CrossWoC provides a good platform to gather up people who are enthusiastic about open source programming, or even analytical coding in general. The event would help churn the best out of the heap, and would give the company an oppportunity to get their hands on them. Some of the students might even end up getting selected for GSOC. Companies may even give out open hiring tasks via CrossWoC.
